Spring 2014 marks our 22nd year in business! We owe a lot of our success to our loyal clients, like yourself. Thank you for your business and we really appreciate all your continued referrals.

We are continuing to focus on sustainable landscape use, maintenance and installation. Consider using native and locally adapted plants in your next landscape project to help conserve water, minimize maintenance and promote sustainable landscapes.

If you aren't already receiving our "tip of the week", be sure to sign up by contacting us at info@designscapes.org

➤ Spring Re-Mulch Special

Enhance the aesthetic appearance and the water conservation capability of your ornamental beds while decreasing weed seeds from germinating with the addition of mulch.

Order through May to receive this special price:

Re-mulching - Supreme Fiber Mulch (Labor & Material) \$ 100.00/CY

NOTE: The above pricing is for Supreme Fiber Mulch only and delivery fee applies (For a quote for different mulch, please contact our office)

➤ Professional Lighting Design

After two decades of professional lighting design experience, from retail shops, offices, private homes, apartments, neighborhood promenades and other lighting projects, we've had the opportunity to shed light on thousands of our customer's lighting needs. With that experience comes a passion and understanding for the art and science behind the design, installation and servicing of outdoor lighting.

We don't just install lights, we transform your property into a masterpiece that will make you proud. With newly available technology the "FLEX" lighting system allows you to convert your existing lighting to LED without needing to switch out your current fixtures. Our newly expanded team of lighting professionals will help transform the appearance of your dream home with our innovative and award winning use of light to produce stunning effects.

Optimize your lighting system to make sure it continues looking its best by adding our maintenance and tuning service every six months. Common issues include vegetation overgrowth, water spotting on lenses, severed wires and broken lights. It's crucial to regularly maintain your system to make sure it looks as good as the day it was installed. Call for a quote!

Head to our "Google+ Designscapes Colorado" page, click the pencil, write a review of our services and you'll be entered into a drawing for a Unique outdoor lighting system including 12 light fixtures, transformer and photocell (not including electrical) - a value of \$4,200! Write a review before May 15th to be considered.

we recommend

Renovations

Is there a project you have been putting off? Are your shrubs overgrown? Invest in your landscape. Whether you need a few perennials for a splash of color or a new outdoor living space; let us help you create the perfect landscape for your family to enjoy for years.

Annual Color

Let us add a splash of color to liven up your gardens this season. Our design team is highly skilled with providing exquisite color combinations that allow your home to blossom with color. From overflowing annual pots with eye-catching centers to fragrant moon garden shining in night or day, allow us to create a unique palette of color using the newest and best annuals in the industry.

Bed Care Program

Our program is tailored around each homeowner's specific needs in order to achieve the best looking beds throughout the season. While each property is different, our experienced team, lead by a garden specialist, customizes each package to ensure lasting beauty, including weekly or bi-weekly weeding, dead-heading, trimming, fertilizer applications, and over-all bed maintenance.

Lawn Maintenance

Getting your landscape healthy early is the key to enduring the summer heat and stress. We will design a mowing package around your needs and lifestyle.

Fertilization. Our program includes four applications a year with different blends of nutrients and minerals that encourage a healthy lawn every season.

Broadleaf Weed Control. From dandelions to bindweed, our spring pre-emergent and post-emergent professional turf application provides the 'knock-down' power needed to control this problem at the root.

Aeration. Recommended twice a year to help reduce thatch, relieve compaction and channel water and fertilizer into the root zones creating growth pockets for new roots.
